This report listing the Top 100 Worldwide Universities that received the most U.S. utility patents is published by the National Academy of Inventors and the Intellectual Property Owners Association. The information provided in the list is based on data obtained from the U.S. Patent and Trademark Office. Patents reported are utility patents granted during the 2016 calendar year. When a patent is assigned to one or more entities, credit is given to the first named entity. For inquiries, or if you have a research foundation that should be combined with your university assignment in the future, contact kleach@academyofinventors.org.

The National Academy of Inventors is a 501(c)(3) non-profit member organization comprising U.S. and international universities, and governmental and non-profit research institutes, with over 4,000 individual inventor members and Fellows spanning more than 250 institutions. It was founded in 2010 to recognize and encourage inventors with patents issued from the U.S. Patent and Trademark Office, enhance the visibility of academic technology and innovation, encourage the disclosure of intellectual property, educate and mentor innovative students, and translate the inventions of its members to benefit society. www.AcademyofInventors.org

The Intellectual Property Owners Association (IPO), established in 1972, is a trade association for owners of patents, trademarks, copyrights, and trade secrets. IPO is the only association in the U.S. that serves all intellectual property owners in all industries and all fields of technology. IPO advocates for effective and affordable IP ownership rights and provides a wide array of services to members, including: supporting member interests relating to legislative and international issues; analyzing current IP issues; information and educational services; and disseminating information to the general public on the importance of intellectual property rights. www.ipo.org
